# Online Enrolments Streamlined

**JWAM**
Online Registrar Portal

# A seamless experience for admissions teams and applicants with JWAM's enrolment portal.
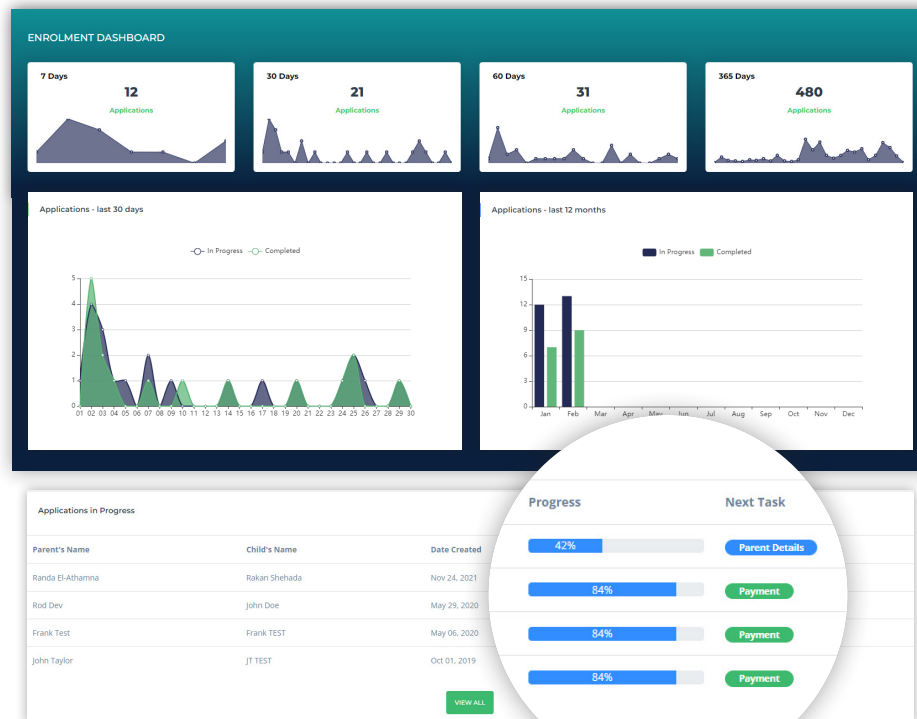

Our solution will enable parents to apply for enrolment and keep the process on-track. We make it so easy for School Registrar's to review enrolments and send out offers. A streamlined process that integrates with payment and student management systems.

## Keep track of your enrolments

A simple, easy to use dashboard with graphs makes it easy to see enrolment progress and access enrolment data.

✓ See applications in progress and how what their next enrolment step is.

✓ Export custom reports - perfect for marketing meetings

✓ Easy to use graphical interface that is easy to navigate.

# Manage individual enrolments and save time with xml export

Access individual enrolments, create case notes, make edits to their profile, send quick emails, print applications or save as pdf.

- ✓ Score applicants based on preference

- ✓ Send them an enrolment offer or add them to a list to send bulk offers.

- ✓ Export xml tree to upload into student management systems.

- ✓ View in progress applications. Make your own changes if required.
